This **GMMB (Get My Money Back) Policy ("Policy")** governs the **automated repayment collection services** offered by VroPay ("Company," "We," "Us," "Our") to users ("Lender," "Borrower," "You," "Your") through its **website, mobile application, APIs, and digital financial services** (collectively referred to as the "**Platform**").

The **GMMB system is designed to help individuals and businesses securely collect repayments** from borrowers through **automated e-mandates and scheduled payments**, ensuring timely settlements while maintaining compliance with **RBI Guidelines on Digital Lending, the Payment and Settlement Systems Act, 2007, the Information Technology Act, 2000, and other applicable financial regulations**.

By using GMMB, you acknowledge that you **have read, understood, and agreed** to this Policy.

2. Scope of GMMB Services

VroPay's **GMMB service enables users to set up and automate repayment collection** by generating e-mandates linked to a borrower's bank account or UPI ID. This service is applicable to:

1. **Individuals lending money to known borrowers** (peer-to-peer repayments).
2. **Businesses collecting customer payments or pending dues.**
3. **Freelancers and service providers collecting periodic fees.**
4. **Startup founders or small business owners managing repayments from vendors, suppliers, or partners.**

2.1 How GMMB Works

1. The lender **sets up an e-mandate request** through the VroPay dashboard by entering:
 - Borrower's name, mobile number, and email ID.
 - Amount to be collected.
 - Payment frequency (one-time, weekly, monthly, custom schedule).
 - Mode of collection (UPI, bank account auto-debit).
2. A **unique payment link or QR code** is generated, which the borrower must accept and approve.
3. Upon approval, VroPay **automatically processes repayments on the agreed schedule.**

4. Borrowers receive **reminders before due dates**, and payments are deducted as per the approved mandate.

3. Fees & Charges for GMMB Services

To use the GMMB service, lenders must pay a **one-time e-mandate setup fee**, based on the repayment amount:

Repayment Amount	Setup Fee (One-Time)
Up to ₹25,000	₹100
₹25,000 – ₹50,000	₹150
Above ₹50,000	₹200

No additional transaction fees apply for repayments processed through the approved e-mandate.

4. Lender & Borrower Responsibilities

1. The lender must **only initiate repayment requests for valid financial obligations** and **must not misuse GMMB for unauthorized or illegal collections**.
2. The lender **must ensure borrower consent** before initiating any repayment setup.

4. Lenders must not **use misleading, fraudulent, or forceful methods** to demand payments through GMMB.

4.2 Borrower's Obligations

1. Borrowers must **only approve e-mandates they genuinely owe** and must **ensure sufficient funds** in their bank account for scheduled repayments.
2. **If a borrower wishes to cancel an e-mandate**, they must notify VroPay at least **5 business days before the next due date**.
3. **Failure to make timely repayments may result in penalties, service restrictions, and credit reporting implications.**
